

DOCUMENT 1: BRAND PARTNERSHIP PITCH DECK

1. Why Simplex-ity? (The Value Proposition)

- **The "Confidence Gap" Solution:** While 60% of shoppers abandon carts due to shade uncertainty, our **TINT-powered AI Try-On** provides a "virtual fitting room" that converts browsers into buyers.
- **Guaranteed Professionalism:** We eliminate "Influencer Ghosting." Our **Shared Calendar** and strict requirements ensure that every dollar spent on marketing results in a live stream and a blog post, on schedule.
- **Data-Backed Growth:** We don't just send a sales receipt. We provide a **"Post-Campaign Diagnostic"** showing exactly how your brand's "Launch Exclusive" performed.
- **AI Price Screening:** Our platform scans the global market (Amazon/YesStyle) to ensure your 1st Trial entry price is mathematically optimized for maximum conversion.

2. What We Provide (The Service Suite)

- **AI Commerce Integration:** Full SKUs integration with TINT Virtual Try-On for real-time AR makeup testing.
- **Vetted Influencer "Mini-Shops":** Each brand is featured in a curated digital boutique managed by professional influencers.
- **Exclusive Launch Window:** A dedicated "Hype Cycle" featuring a **30% Off trial** for customers to drive massive first-week volume.
- **Inventory-Light Operations:** A seamless API/Dashboard where you receive "Ready-to-Ship" orders for direct-to-consumer delivery (zero warehousing fees for us, direct control for you).

3. The Work Way (The Operational Process)

1. **Onboarding:** Brand provides high-res images and color HEX codes for TINT AI calibration.

4. **The Launch:** 3–month trial begins with the 30% discount "Trial" price point.
