

SIMPLEX-ITY

ONE STOP ASIAN BEAUTY : SIMPLIFY TO AMPLIFY

Simplex-ity Brand Launch Strategy with Financials

The Final Board-Approved Execution Plan | Chief Design Director / CEO | 2026

Executive Summary

Capital Allocation Request & ROI Targets — Option 2 Funded Growth

\$250K

Capital Allocation Request

Option 2 Funded Growth, M1-6 execution

6.5x

Expected ROI

Within Year 1 under Funded Growth

\$165K

M6 Revenue Target

5 FTE + agency, 85%+ gross margin

\$15K

Bootstrap Fallback

Option 1 — \$9,500 M6 revenue, 2 founders

A-Beauty Master Strategy Overview

6-month trial bridging US consumers to Asian Beauty brands via AI, influencers & scalable data revenue

TINT AI Virtual Try-On

85% AI rendering accuracy powering immersive try-before-you-buy experiences for Asian Beauty brands in North America.

85%
Rendering Accuracy

64% reduction in return rates.
Real-time skin-tone mapping across all skin types.

Influencer Ecosystem

30 beta creators onboarded to drive trials, social proof, and authentic content across tiered commission structures.

30
Beta Creators

Tiered affiliate to partner model.
Predictive payouts & exclusive brand drops.

DaaS Revenue Model

Data-as-a-Service tiers delivering brand intelligence, AI analytics, and ROI dashboards to partner brands.

85%+
Gross Margins

Essential \$499 to Elite \$4,999/mo tiers.
Series A valuation multiplier built in.

6-Month Trial Execution Roadmap

Phased milestones from integration to Series A readiness

M1-2: TINT AI integration + onboard 5 Anchor Brands (2 Founders, Shopify setup).

M3-4: Onboard 30 Beta Creators, Pioneer Club launch, Partnership Manager + HubSpot CRM.

M5-6: ROI Data Dashboard build + Series A pitch preparation, Data Analyst hire, full core 5 FTE team.

Integration → Creator Ecosystem → ROI Intelligence → DaaS Scale → Series A Ready

DaaS Revenue Model

Data-as-a-Service tiers with 85%+ gross margins and Series A valuation multiplier.

Essential — \$499/month

Core brand analytics and AI try-on access.
Target: \$10,000 M6 revenue.

Strategic — \$1,499/month

Advanced DaaS dashboard, CRM integration.
Target: \$25,000 M6 revenue.

Elite — \$4,999/month

Full ROI suite, predictive analytics, priority support.
Target: \$25,000 M6 revenue.

Custom — \$10,000+

Bespoke data packages and spot variable pricing.
Enterprise-level brand partnerships.

85%+ gross margin model — built to scale toward Series
A.

Influencer Ecosystem

Tiered Commission Structure & Retention Engine

A performance-driven ecosystem where creators are rewarded for impact — not just reach.

Commission Tiers:

- Tier 0-1 (Affiliate): 5% commission — social verification + AI post required
- Tier 2 (Host): 8% commission — live shopping access, calendar unlock
- Tier 3 (Partner): 12% commission — exclusive brand drops, custom analytics

Retention Mechanisms:

- Content bank for evergreen creator assets
- Predictive payouts to reward consistent performance
- Tier exclusivity to drive loyalty and long-term engagement

Creators grow with us. Every tier unlocks more tools, more data, and more earning potential.

Bootstrap vs Funded Growth

Investment Comparison: Two Paths to Market

\$15K

Bootstrap Capital (Option 1)

\$9,500 M6 revenue · 2 Founders · ~\$4.8K monthly burn

\$250K

Funded Growth Capital (Option 2)

\$165,000 M6 revenue · 5 FTE + Agency · ~\$42K monthly burn

2 FTE

Bootstrap Team Size

Founders only · Limited execution capacity · Slower scale

17x

Revenue Upside — Funded vs Bootstrap

5 FTE + Agency · Full execution · Series A ready by M6

Market Positioning

vs Amazon

Why brands choose Simplex-ity over the marketplace default.

Amazon

Transaction-
Based Model

Generic

Minimal data access,
standard pricing,
no influencer layer

Simplex-ity

Influencer-Led
Ecosystem

30% Exclusive

Deep AI data access,
immersive content,
exclusive discounts

Our Moat

We Own the
Relationship

& The Data

Brands choose us because
we own the relationship
and the data, not just
the transaction.

Strategic moat: AI-powered influencer data layer unavailable on any marketplace platform

TINT AI Integration & Technology Advantage

AI-powered virtual try-on driving measurable results for brands and consumers.

64%

reduction in product return rates
via AI-powered virtual try-on

85%

AI rendering
confidence score

<2.5s

try-on page load
time target

\$1K/mo

TINT subscription base
• \$1,500 one-time setup

Top KPI

try-on to purchase
conversion rate

SIMPLEX-ITY leverages TINT AI face mapping accuracy and real-time rendering to convert virtual try-ons into instant purchases.

Influencer Payout Structure

No contradiction for brands — only pay when you sell

8–12%

Influencer
Commission

3%

Payment
Processing

2%

AI Tech
Overhead

Total platform fee: 15% per transaction — paid entirely by the platform, not the brand.

Brands pay zero upfront marketing spend and only pay when they sell.

Simplex-ity pays influencers directly, aligning incentives across the entire ecosystem.

Execution Deep Dive Highlights

Operational Plan & Resource Allocation Summary

Influencer Acquisition Budget

Funded Growth Allocation

\$12,000 influencer seeding budget
plus \$3,500 sample shipping allocation

Software Build Phases

M1-6 Roadmap

M1-3: External apps & TINT AI
M4-6: Custom ROI dashboard build

Trial KPI Checklist

Technical & Commercial

AI accuracy 85%+, load <2.5s
Conversion rate & retention targets

Monthly Cost Structure

Bootstrap vs Funded Growth

Bootstrap: ~\$4,800/mo burn
Funded Growth: ~\$42,000/mo burn

ROI Targets & Board Recommendation

Proceed with Option 2 Funded Growth for Dominant Market Capture

Financial Goals & Strategic Recommendation:

- Target ROI: 6.5x return within 12 months (Funded Growth)
- DaaS Gross Margin Target: 85%+
- Board Recommendation: Proceed with Option 2 Funded Growth for dominant market capture and tech moat
- Risk Mitigation: Bootstrap option remains fallback but limited scale

Call to Action:

Request approval of \$250K capital allocation for M1-6 execution.

Funded Growth unlocks the influencer ecosystem, TINT AI integration, and DaaS revenue engine at scale — delivering a defensible market position that Bootstrap cannot achieve.

Summary of Strategic Advantages

Simple, virtuous unique value propositions powering dominant market capture

AI Virtual Try-On

Real-time AI-powered virtual try-on with 85% rendering accuracy, delivering measurable social proof and purchase confidence at scale.

64%
reduction in returns

TINT AI integration drives confidence.
Converts browsers into buyers.

Influencer Ecosystem

Tiered commission structure with 30 beta creators, retention engine, content bank, and predictive payouts driving loyalty and growth.

3-Tier
retention engine

Affiliate to Partner progression.
Exclusive drops and custom analytics.

Scalable DaaS Model

Proprietary ROI dashboard delivering actionable brand insights with scalable Data-as-a-Service tiers and competitive edge over Amazon.

85%+
gross margin

We own the relationship and the data.
Series A valuation multiplier built in.

Next Steps & Timeline to Launch

Immediate Actions Following Board Approval

Upon board sign-off, we move immediately into execution:

- Board approval and release of \$250,000 capital allocation for M1-M6 funded growth execution
 - Finalize tech stack architecture and complete TINT AI integration (\$1,000/mo + \$1,500 setup) to activate 85% rendering accuracy
 - Onboard core group of 30 beta influencers and launch Pioneer Club with tiered commission structure and retention engine
 - Initiate marketing blitz, live pilot phase, and brand onboarding for 5 Anchor Brands
 - Prepare Series A investor pitch materials leveraging ROI dashboard data and DaaS performance metrics
- Simplify to Amplify — from approval to launch in 30 days.

The Final Board-
Approved Execution
Plan

SIMPLEX-ITY BRAND LAUNCH STRATEGY WITH FINANCIALS

SIMPLEX-ITY
BRAND LAUNCH STRATEGY WITH
FINANCIALS
THE FINAL BOARD-APPROVED
EXECUTION PLAN
CHIEF DESIGN DIRECTOR / CEO
2025

Executive

Bridge Asian Beauty brands to North America via an AI-powered influencer ecosystem. Capital Allocation Request: \$250,000 HKD for Funded Growth (Option 2), M1-6 execution.

Summary

Capital Ask

\$250,000 HKD Funded Growth Option 2 — full M1-6 execution with 5 FTE + agency support

Expected ROI

6.5x return within Year 1 — DaaS gross margins of 85%+ with Series A valuation multiplier

Bootstrap Fallback

Option 1 Bootstrap: \$15k capital, \$9,500 M6 revenue, ~\$4.8k monthly burn, 2 founders only

A-Beauty Master Strategy Overview

Core Strategic Pillars

6-month trial bridging US consumers to Asian Beauty brands powered by TINT AI Virtual Try-On with 85% rendering accuracy, delivering immersive product discovery at scale.

Influencer ecosystem onboarding 30 beta creators driving trials, social proof, and authentic content that converts — all managed through a tiered commission structure.

Data-as-a-Service (DaaS) revenue model with Essential, Strategic, and Elite tiers delivering 85%+ gross margins and a compelling Series A valuation multiplier.

[Learn More >>](#)

6-Month Trial Execution Roadmap

● M1-2: Foundation ● M3-4: Growth ● M5-6: Scale & Launch

Data-as-a-Service Revenue Model

Essential Tier — \$499/month

Core brand analytics & AI try-on access — M6 Revenue Target: HKD \$78,000

Strategic Tier — \$1,499/month

Advanced DaaS insights, CRM integration & creator reports — M6 Target: HKD \$195,000

Elite Tier — \$4,999/month

Full ROI dashboard, predictive analytics & priority support — M6 Target: HKD \$195,000

Custom Enterprise — \$10,000+

Bespoke data solutions & white-label reporting — variable spot pricing per engagement

Gross Margin Target: 85%+

High-margin SaaS model with Series A valuation multiplier — brands pay only on performance

Influencer

Tiered commissions & retention engine powering authentic creator-led growth. Platform pays influencers directly — brands pay zero upfront marketing spend.

Tier 0-1 Affiliate: 5%

Commission

Social verification + AI post required. Entry-level access with live shopping unlock upon milestone completion.

Tier 2 Host: 8% Commission

Live shopping access + calendar unlock. Retention via content bank & predictive payout scheduling.

Tier 3 Partner: 12% Commission

Exclusive brand drops + custom analytics. Tier exclusivity drives loyalty and long-term creator retention.

來源：AI 產生的資料。請在使用前更換或驗證。

Investment Comparison

Bootstrap vs Funded Growth — two paths, one clear winner. Option 2 delivers 17x more M6 revenue with a dedicated team and full tech stack execution.

\$15k

\$250k

Market Positioning

Amazon: transaction-based, minimal data access, generic listings, standard pricing — no relationship with the customer.

Simplex-ity: Influencer-led immersive content, deep AI data access, exclusive 30% off brand discounts, and full ownership of customer relationships.

"Brands choose us because we own the relationship and the data, not just the transaction."

TINT AI Integration & Technology Advantage

AI-Powered Virtual Try-On — The Core Tech Moat

TINT Subscription: \$1,000/mo base + \$1,500 one-time setup & API fee

- 64% reduction in product return rates via AI try-on confidence
- 85% AI rendering accuracy for face mapping & skin tone matching
- Page load performance KPI: under 2.5 seconds
- Try-on to purchase conversion rate tracking built-in
- Internal ROI dashboard integration in M5-6 build phase
- Trial KPIs: face mapping accuracy, load speed, conversion lift

[View Tech Specs >>](#)

Payout Structure

Brands pay zero upfront marketing spend — they only pay when they sell. Simplex-ity's 15% transaction fee covers all influencer commissions, payment processing, and AI tech overhead. Platform pays influencers directly, fully aligning incentives and eliminating brand risk.

Execution Deep Dive

Influencer Acquisition & Sampling

Funded: \$18k influencer budget + \$6k sample shipping (M1-6). Bootstrap: organic outreach only, zero paid acquisition spend.

Software Build Phases

M1-3: External apps (TINT AI, HubSpot, Shopify). M4-6: Custom internal ROI dashboard build with Data Analyst onboard.

Trial KPI Checklist

Technical: AI face mapping accuracy $\geq 85\%$, page load $< 2.5s$. Commercial: try-on-to-purchase conversion, 90-day creator retention rate.

Operational plan, resource allocation, and KPI checklist covering software build phases, influencer acquisition, and monthly cost structure for Bootstrap vs Funded Growth.

ROI Targets & Board Recommendation

Target ROI

6.5x return within 12 months under Funded Growth Option 2 — driven by DaaS subscriptions and influencer ecosystem scale

DaaS Gross Margin

85%+ gross margin target on Data-as-a-Service tiers — Essential \$499, Strategic \$1,499, Elite \$4,999/mo — with Series A valuation multiplier

Board

Recommendation
Proceed with Option 2 Funded Growth (\$250k) for dominant market capture, tech moat via TINT AI, and full 5-FTE core team deployment

Risk Mitigation

Bootstrap Option 1 (\$15k capital, \$9,500 M6 revenue) remains viable fallback — limited scale but preserves runway if funding delayed

Call to Action

Request board approval of \$250,000 HKD capital allocation for M1-M6 execution to unlock full growth trajectory and Series A readiness

Strategic Advantages

AI-Powered Virtual Try-On

TINT AI delivers 85% rendering accuracy with real-time social proof, reducing return rates by 64% and driving trial-to-purchase conversion at scale.

Tiered Influencer Ecosystem

30 beta creators across 3 commission tiers (5–12%) with retention tools including content bank, predictive payouts, and exclusive brand drops.

Scalable DaaS Revenue

Model
Essential to Elite tiers at 85%+ gross margins. Proprietary ROI dashboard delivers actionable brand insights — owning the customer relationship and data, not just the transaction.

Simplex-ity's competitive moat is built on five reinforcing pillars — AI technology, influencer loyalty, scalable data revenue, proprietary analytics, and exclusive brand relationships that Amazon simply cannot replicate.

Next Steps & Timeline to Launch

Board Approval & Funding Release

Approve \$250k capital allocation and initiate M1-6 funded growth execution immediately

Finalize Tech Stack & TINT AI Integration

Complete TINT AI API setup (\$1,500 one-time fee) and finalize full software stack for launch

Onboard 30 Beta Influencers

Launch Pioneer Club, activate tiered commissions, and onboard core creator cohort

Marketing Blitz & Live Pilot Phase

Execute influencer-led campaigns, go live with try-on pilot, and track conversion KPIs

Series A Investor Pitch Preparation

Leverage ROI dashboard data to build Series A deck targeting dominant market capture

 Strategic \$1,499/mo → \$25K M6 target |
 Elite \$4,999/mo → \$25K M6 target |
 Custom \$10K+ variable
 85%+ gross margin model — built for Series
 A valuation multiplier.

INFLUENCER ECOSYSTEM & RETENTION ENGINE

Tier 0-1 Affiliate: 5% commission, social verification + AI post required. Tier 2 Host: 8% commission, live shopping access & calendar unlock. Tier 3 Partner: 12% commission, exclusive brand drops & custom analytics. Retention: content bank, predictive payouts & tier exclusivity.

Influencer Ecosystem

Free Intermittency Ccesn of deeceridnt:

INVESTMENT COMPARISON: BOOTSTRAP VS FUNDED GROWTH

Option 1 Bootstrap: \$15k capital · \$9,500 M6 revenue · ~\$4.8k/mo burn · 2 Founders

Option 2 Funded Growth: \$250k capital · \$165,000 M6 revenue · ~\$42k/mo burn · 5 FTE + Agency

Funded Growth delivers 17x higher M6 revenue — the clear path to dominant market capture.

MARKET POSITIONING VS AMAZON

Amazon: transaction-based, minimal data, generic listings. Simplex-ity: influencer-led content, deep AI data access, exclusive 30% off. "We own the relationship and the data, not just the transaction."

TINT AI INTEGRATION & TECHNOLOGY ADVANTAGE

\$1,000/mo subscription + \$1,500 one-time setup | 64% reduction in return rates | 85% AI rendering confidence | Trial KPIs: face mapping accuracy, <2.5s page load, try-on to purchase conversion rate

INFLUENCER PAYOUT STRUCTURE

Brands pay zero upfront — only when they sell. The platform's 15% transaction fee covers: 8-12% influencer commission, 3% payment processing, and 2% AI tech overhead. Simplex-ity pays influencers directly, aligning all incentives.

EXECUTION DEEP DIVE HIGHLIGHTS

Influencer acquisition budget & sample shipping (Funded). Software build: M1-3 external apps → M4-6 custom ROI dashboard. Trial KPIs: AI accuracy, load <2.5s, try-on-to-purchase conversion & retention. Monthly burn: Bootstrap ~\$4.8k vs Funded ~\$42k.

ROI TARGETS & BOARD RECOMMENDATION

Target ROI: 6.5x return within 12 months (Funded Growth) · DaaS gross margin target: 85%+

Board Recommendation: Proceed with Option 2 Funded Growth for dominant market capture and tech moat.

Risk Mitigation: Bootstrap option remains available as fallback, though limited in scale.

Call to Action: Request board approval of \$250k capital allocation for M1-6 execution.

SUMMARY OF STRATEGIC ADVANTAGES

AI-powered virtual try-on with real-time social proof

Tiered influencer ecosystem with retention engine

Scalable DaaS model — 85%+ gross margins

Proprietary ROI dashboard with actionable brand insights

Competitive edge: we own the relationship and the data

NEXT STEPS & TIMELINE TO LAUNCH

- 01 Board approval & \$250k capital release
- 02 Finalize tech stack & TINT AI integration
- 03 Onboard 30 beta influencers & Pioneer Club launch
- 04 Initiate marketing blitz & live pilot phase
- 05 Prepare Series A pitch with ROI dashboard data

A-Beauty Master Strategy Overview

Core strategic pillars powering Simplex-ity's 6-month execution plan

TINT AI Virtual Try-On

6-month trial bridging US consumers to Asian Beauty brands via AI-powered virtual try-on technology with industry-leading rendering accuracy.

85%
AI Rendering
Accuracy

64% reduction in return rates.
Real-time skin-tone matched try-on.

Influencer Ecosystem

Onboarding 30 beta creators driving trials, social proof, and authentic content across tiered commission and retention structures.

30
Beta Creators

Pioneer Club launch in M3-Q4.
Tiered commissions: 5-12%.

DaaS Revenue Model

Data-as-a-Service tiers delivering actionable brand insights, proprietary ROI dashboards, and scalable recurring revenue streams.

85%+
Gross Margin

Essential to Elite tiers: \$499-\$4,999/mo.
Series A valuation multiplier.

6-Month Trial Execution

Phased milestones from integration to Series A readiness

M1-2: TINT AI integration + onboard 5 Anchor Brands (2 Founders, Shopify setup). M3-4: Recruit 30 Beta Creators, launch Pioneer Club, add Partnership Manager + HubSpot CRM. M5-6: Build internal ROI Dashboard, complete Series A pitch deck, hire Data Analyst (full 5 FTE team).

Integrate → Creator Network → ROI Intelligence → DaaS Scale → Series A Ready

DaaS Revenue Model

Data-as-a-Service Tiers & M6 Revenue Targets

Scalable, high-margin revenue tiers designed for brand growth at every stage.

- Essential — \$499/month

Target: \$10,000 M6 revenue

Core analytics & AI try-on access

- Strategic — \$1,499/month

Target: \$25,000 M6 revenue

Full influencer dashboard + CRM integration

- Elite — \$4,999/month

Target: \$25,000 M6 revenue

Custom analytics, priority support & brand drops

- Custom — \$10,000+ (spot variable)

Enterprise-level bespoke data solutions

85%+ gross margin business model.

High-value Series A valuation multiplier.

Influencer Ecosystem & Retention Engine

Tiered Commission Structure & Creator Retention Tools

Our influencer ecosystem is built for loyalty, performance, and scale.

- Tier 0-1 (Affiliate): 5% commission — social verification + AI post required
- Tier 2 (Host): 8% commission — live shopping access + calendar unlock
- Tier 3 (Partner): 12% commission — exclusive brand drops + custom analytics

Retention Mechanisms:

- Content bank for evergreen creator assets
- Predictive payouts to reward consistent performance
- Tier exclusivity driving long-term creator loyalty

Platform pays influencers directly — brands pay zero upfront marketing spend.

Recommended
Option

6.5x ROI

Proceed with Option 2 for dominant market capture and
tech moat

Option 1 remains a viable fallback — limited scale, lower risk exposure

Market Positioning

Why brands choose Simplex-ity over the world's largest marketplace.

vs Amazon

Amazon

Transaction-
Based Model

Generic

Minimal data access, standard listings, no
influencer relationship, pay-to-play ads

Simplex-ity

Influencer-Led
Ecosystem

AI-Powered

Deep AI data access, immersive try-on content,
exclusive 30% off discounts for members

Our Moat

Own the
Relationship

& the Data

Brands choose us because we own the
relationship and the data, not just the transaction

Simplex-ity — Simplify to Amplify | Strategic Moat: AI + Influencer + Data Ownership

TINT AI Integration

Technology Advantage & Virtual Try-On Performance

Powering confident beauty purchases through AI-driven virtual try-on technology.

Integration Investment:

- TINT Subscription: \$1,000/month base fee
- One-Time Setup & API Fee: \$1,500
- Internal ROI dashboard build: Month 5-6

Proven Impact:

- 64% reduction in product return rates
- 85% AI rendering confidence score
- Real-time face mapping across skin tones

Trial KPIs:

- AI face mapping accuracy threshold
- Page load time target: <2.5 seconds
- Try-on to purchase conversion rate
- Session engagement and repeat try-on rate

Technology that builds trust before the first purchase.

Influencer Payout

No contradiction for brands — platform pays influencers directly.

15%

total transaction fee covers all influencer commissions, processing, and AI tech overhead

8–12%

Influencer Commission
paid by platform

3%

Payment
Processing

2%

AI Tech
Overhead

\$0

upfront brand
marketing spend

Brands only pay when they sell — SIMPLEX-ITY pays influencers directly, aligning platform incentives with brand growth.

Execution Deep Dive

Operational plan, resource allocation, and KPI framework for M1-M6 execution.

Influencer Acquisition & Sampling

Funded: \$8,000 influencer acquisition budget + \$5,000 sample shipping (M1-M4). Bootstrap: organic outreach only, zero paid acquisition. Target: 30 beta creators onboarded by M4.

Software Build Phases M1-M6

M1-M3: External apps (TINT AI, HubSpot CRM, Shopify). M4-M6: Custom internal ROI dashboard build. Data Analyst hired M5 to own dashboard delivery and Series A data prep.

Trial KPI Checklist

Technical: AI face-mapping accuracy $\geq 85\%$, page load $< 2.5s$, try-on uptime $> 99\%$. Commercial: try-on to purchase conversion rate, creator retention $\geq 80\%$, brand reorder rate $\geq 60\%$.

Monthly Cost Structure Comparison

Bootstrap: ~\$4,800/mo burn — 2 founders, minimal tooling. Funded Growth: ~\$42,000/mo burn — 5 FTE + agency, full tech stack, paid acquisition, and sample logistics activated.

Disciplined execution against KPIs is the foundation for Series A readiness.

ROI Targets & Board Recommendation

Proceed with Option 2 Funded Growth for dominant market capture and technology moat.

Year 1 Target

DaaS Margin

Capital Ask

- Target ROI: 6.5x return within 12 months (Funded Growth)
- DaaS gross margin target: 85%+ with Series A valuation multiplier
- Board Recommendation: Approve Option 2 Funded Growth for full execution
 - Risk mitigation: Bootstrap option remains fallback but limits scale
- Call to Action: Approve \$250K capital allocation for M1-6 execution
