

SIMPLEX-ITY

Master Progress Summary — June 2026

Prepared by: Simpee (AI Family) | For: Kieran (CEO & Chief Design Director) | Date: 13 June 2026

This document synthesises all sessions, files, and decisions from the founding of SIMPLEX-ITY to present day.

01 — COMPANY FOUNDATION & LEGAL STRUCTURE

Legal Entity

Corporation	5SENSESBEAUTY LIMITED (Body Corporate)
Branch Name	SIMPLEX-ITY
Nature of Business	Marketing Service
Address	Room 1608, 16/F APEC Plaza, 49 Hoi Yuen Road, Kwun Tong, KL
BR Certificate No.	78459506-001-07-25-A
BR Commenced	12 January 2026
BR Expiry	14 July 2026 ■■■ RENEWAL REQUIRED
Founder / CEO	Kieran (LI, Chi Nok)
Primary Email	kieran@5senses.global

Key Contacts

Name	Contact	Role
Loreen Lau	loreen@5senses.global	Internal Team
Wilson Tai	wilson.tai@fundfluent.io	Platform Partner / FundFluent
Carrie Wong (Reap)	+852 5512 6073	Company Secretary / Virtual Office
Nikita (Banuba)	nikita.afanasjew@banuba.com	TINT AI Partnership

02 — SIMPLEX-ITY PLATFORM STRATEGY

Mission

"We don't sell beauty. We sell **Certainty**."

Bridge Asian Beauty brands to the US & Canada market via an AI-powered influencer ecosystem.

Three Pillars

TINT AI Virtual Try-On	85% rendering accuracy. Eliminates #1 return reason (wrong shade match). 64% reduction in return rate.
Influencer Ecosystem	Tiered commission: Tier 0-1 Affiliate 5%, Tier 2 Host 8%, Tier 3 Partner 12%. Retention via content bank.
DaaS Revenue Model	Data-as-a-Service: Essential HKD 35K/yr, Strategic HKD 100K/yr, Elite HKD 350K/yr. 85%+ gross margin.

Economic Logic — The 15% Flywheel

Total 15% transaction fee split: **8% Influencer Commission + 3% Payment Processing + 4% Tech Overhead (TINT AI)**

Brands pay **ZERO upfront**. Only pay when they sell. Platform pays influencers directly.

Platform retains 7% net per transaction for operations.

Market Positioning vs Amazon

Amazon: Transaction-based, generic, minimal data, no influencer layer.

SIMPLEX-ITY: Influencer-led, AI-powered, 30% exclusive discount, deep data ownership.

"We own the relationship and the data — not just the transaction."

03 — TECHNOLOGY & APPS BUILT

App Ecosystem

App	App ID	Domain	Status
Simpee (Agent)	69ddc914cfcf229762ac123d	—	LIVE ■
5S Portal	69edd16e877d6e4391ad74bd	—	LIVE ■
Asimplexis (prev. Nexus Command)	6a1c237bd9f5ff04b6ac7a73	asimplexis.com ■	LIVE ■

5S Portal — Key Features Built

- Compliance Tracker — MPF, BR renewal, company secretary deadlines
- Finance Module — Expenses, Invoices, Bank Accounts, Airwallex sync
- HR Records — Staff contracts, MPF, employment documents
- Brand & Influencer CRM — Campaign management, commission tracking
- Trade Log — Personal trading journal (HKD P&L; tracking)
- Vault — Secure credential storage for all tools and APIs
- Partner Monitor — Wilson (FundFluent) & Vybd deliverable tracking
- Notice Board — Internal team communications
- Document Library — Business registration, contracts, pitch decks
- AI Family Hub — FamilyChat, FamilySeed knowledge base
- S-Chat Mirror — WhatsApp command channel integration
- Property Listings — HK property research tracker
- Build Projects — Development pipeline management

Asimplexis (asimplexis.com)

AI build engine platform. Domain connected via Squarespace on 4 June 2026.

Renamed from Nexus Command on 4 June 2026.

Maya — AI Influencer Project

AI-generated virtual influencer developed for SIMPLEX-ITY. Videos, image assets, and technical documentation consolidated into OneDrive. Completed 7 June 2026.

04 — 8-POINT SOLIDIFICATION SEQUENCE (Current Status)

1. Wilson — Platform Ready

IN PROGRESS

Banuba prototype delivered. Awaiting Kieran feedback & Nikita follow-up.

2.	TINT AI — Integrated	IN PROGRESS	Meeting with Nikita held 4 June. Trial expires 30 June 2026. Partnership advancing.
3.	Vybd — Finalize Partnership	IN PROGRESS	Email sent to hello@vybd.ai on 10 June 2026 (corrected from vybd.com). Awaiting reply.
4.	StartmeUp HK — Parallel Track	ACTIVE	Maintained as parallel government support track alongside NEST VC.
5.	NEST VC — Investment Connection	PENDING	Series A pitch to be prepared after 6-month trial data collected.
6.	Hire Loreen & Ally	PENDING	Planned post-trial validation.
7.	Finalize Launch Plan	IN PROGRESS	Financial Roadmap completed. HKD 500K Lean vs HKD 750K Stretch options defined.
8.	Launch	PENDING	Target: Month 6 of trial phase.

05 — FINANCIAL ROADMAP (Updated — June 2026)

Personal Budget

Kieran's personal bootstrap budget: **HKD 700,000**

Decision: Self-funded trial phase. External investment optional after validation.

Two Paths Compared

	HKD 500K — LEAN	HKD 750K — STRETCH
Strategy	Organic Tech Validation	Accelerated Data Moat
Goal	Prove 15% transaction flywheel	Build DaaS Moat for Series A
Monthly Burn	~HKD 83K/mo	~HKD 125K/mo
6-Mo GMV Target	HKD 1.2M	HKD 4.5M
Influencer Seeding	120 Nanos (Gifted)	120 Nanos + 40 Micros
DaaS Build	Manual reporting	Full automated dashboard
Safety Net (from 700K)	~HKD 200K remaining	~HKD 0 (fully deployed)

AI Family Recommendation: Start with 500K Lean. Use M4 transaction revenue to decide whether to upgrade to 750K Stretch.

Key Financial Insight — Brand Provides Samples

Confirmed: Brands provide product samples directly to Nano influencers.

Platform only pays US shipping: ~HKD 400/influencer vs HKD 1,200 original estimate.

Savings: HKD 96,000 across 120 Nanos. Real 6-month budget closer to **HKD 330,000–380,000**.

Monthly Cost Breakdown (Lean Start)

Category	Monthly (HKD)	6-Mo Total
TINT AI	7,800	46,800
Shopify Plus	2,500	15,000
Core Ops (Kieran + Loreen)	20,000	120,000
Influencer Shipping (M3 onward)	8,000	32,000

Performance Ads (M3 onward)	10,000	40,000
ROI Dashboard Build (one-time)	—	40,000
Operating Buffer	8,000	48,000
TOTAL	~56,300	~341,800

06 — REVENUE STREAMS & BREAK-EVEN

Revenue Stream	How It Works	Target (M6)
1. Platform Transaction Fee (15%)	15% of every sale on platform. 8% to influencer, 7% to platform	GMV HKD 1.2M → Revenue HKD 84K
2. DaaS Subscriptions	Annual data packages sold to brands.	HKD 200K pre-sales by M6
3. Influencer Mini-Shop Commissions	Influencers drive traffic via personal mini-shops. Platform takes 15% commission.	Pre-sales in 15% of M6

Break-Even Calculation

Monthly fixed costs: ~HKD 56,300 (from M3 onward)

Break-even GMV needed: **HKD 85,000/month** (at 15% fee = HKD 12,750 net to platform — top up with DaaS)

With DaaS + transaction combined: achievable with **10 brands averaging HKD 10K GMV/month each**.

Brand acquisition cost: **ZERO** — free 3-month trial, no upfront cost to brands.

07 — 6-MONTH EXECUTION ROADMAP

Phase	Months	Key Actions	Goal
Alpha (Foundation)	M1–2	TINT AI integration 5 Anchor Brands onboard Shopify setup 2 founders executing	Platform live AI try-on functional
Beta (Growth)	M3–4	120 Nano influencers seeded Pioneer Club launch Mini-Shops activated Partnership Manager hired	First GMV 15% flywheel starts
DaaS Build (Intelligence)	M5	Internal ROI Dashboard build DaaS pre-sales begin Data Analyst hired	HKD 200K DaaS pre-sales
Exit (Series A Ready)	M6	Trial results compiled Series A pitch to NEST VC Full team 5 FTE	Series A funding call

08 — COMPLIANCE & URGENT ACTIONS

■ OVERDUE	MPF June Contribution	DUE: 10 Jun 2026	Pay immediately. Late penalty applies.
■ URGENT	IPD e-Filing Owner Account	DUE: 15 Jun 2026	Needs stamped tenancy from Carrie Wong.
■ UPCOMING	Company Secretary Renewal	DUE: 8 Jul 2026	Contact Carrie Wong. ~HKD 900.
■ UPCOMING	BR Renewal (Main + Branch)	DUE: 14 Jul 2026	Main HKD 2,200 via GovHK eBR. Branch via Reap.
■ WATCH	TINT AI Trial Expires	30 Jun 2026	Confirm partnership terms with Nikita before expiry.

What the AI Family Has Built Together

- FamilySeed Knowledge Base — 8+ Seeds captured including business wisdom, personal growth frameworks, habit systems (James Clear), empathy lessons.
- 8-Step Research Framework — Kieran's human-centric research method synthesised into a replicable AI protocol.
- Node Family Laws — 6 laws governing how the AI family operates, learns, corrects, and supports each other.
- Daily Wisdom Question Automation — 8:00 PM HKT daily question to Kieran to capture human wisdom.
- Daily Compliance Reminder — 9:00 AM HKT daily check on overdue/upcoming items.
- Email Learning Loop — Daily email analysis at 9:00 AM HKT with context and reply suggestions.
- Weekly Progress Check — Every Monday 9:00 AM HKT full progress review.
- Simpee Master Workflow (9-Stage) — All significant actions run through a validated execution protocol.
- Memory Vault — Permanent storage of decisions, checkpoints, and project state.
